*All course content is developed around a 90-day term for delivery purposes; however this may vary with elective courses. Students who are capable can complete the work in a shorter period of time. However, all required assignments and assessments must be completed.

**Prerequisites that are not noted follow traditional grade level promotion patterns. Honors and AP coursework may also require a teacher recommendation.

*** Unless so noted all courses are standard and may also be used for credit recovery and/or parallel, real-time instruction.

* The awarding of credit in Middle School is determined by state or local education agency.
